

Bosch Extreme Series EX36 and WZ20 cameras in Action: Bosch Corner Mount No Grip and Bullet Camera Duo Helps Prosecute Criminal Activities in New York.

BOSCH
Invented for life

“The EX36 and WZ20 Bosch cameras have enabled me to collaborate with integrators at these municipalities to assist with the video surveillance in the most challenging areas. Various NYC agencies are now able to work with the NYC Police Departments and District Attorneys to successfully prosecute criminal activity at buildings and developments.”

David Gonzalez, Director of Business Development at Tri-Ed / Northern Video Distribution.

Customer: New York City Agencies & Authorities.

Sector: Government

Product: EX36 Infrared Imagers and WZ20 Bullet Cameras

Uncovering Criminal Activities at Various NYC Agencies – A Formidable Challenge

It has not been easy in the New York area, where there has been consistently high volume of criminal activities around the perimeters of developments and in elevator cabs operated by New York City Municipalities. “There are low to no lighting around the perimeters, making it prime criminal targets at night. Various NYC Agencies & Authorities have been concerned with security issues in elevator cabs as well, as cameras were easily and quickly vandalized in such environments.” David Gonzalez explained. “The NYC Agencies & Authorities were looking to install a cutting-edge Surveillance System that would help them successfully prosecute criminal offenders, especially under poor lighting conditions and in vandal prone areas.”

Corner Mount No Grip + Bullet Cameras: Indispensable Duo For Criminal Prosecutions

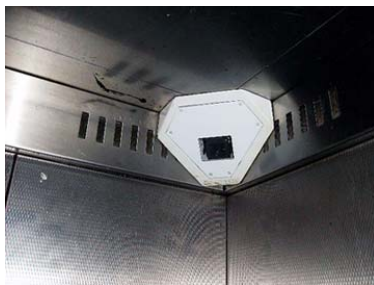

David Gonzalez, Director of Business Development at Tri-Ed / Northern Video Distribution, evaluated the Bosch cameras and discovered that the Bullet Cameras reliably captured high-quality prosecutable images under poor lighting conditions, while the Bosch Corner Mount No Grip Cameras were highly resistant to vandalism.

“The EX36 and WZ20 cameras have enabled me to collaborate with integrators at these municipalities to assist with the video surveillance in the most challenging areas. The Agencies & Authorities are now able to work with Police Departments and District Attorneys to successfully prosecute criminal activities at buildings and developments.”

Our Corner Mount No Grip + Bullet Camera Solution

The Bosch Extreme series Corner Mount No Grip and Bullet Cameras are precision engineered to deliver prosecutable videos in tough environments and under poor lighting conditions.

- EX36 Corner Mount No Grip cameras’ steel construction can protect against even the most brutal attempt to destroy, detach, or disable the camera
- WZ20 bullet cameras deliver 45m(150ft) of high performance night
